SMARTKEY SECURITY™

SMARTKEY SECURITY™

PICK RESISTANT

BUMP PROOF

RE-KEY TECHNOLOGY

SUPERIOR SECURITY

Kwikset's patented SmartKey Security protects against advanced break-in techniques.

SECURITY MADE CONVENIENT

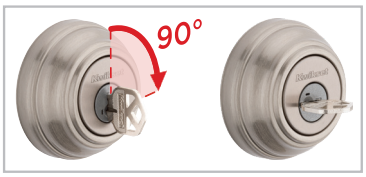

SmartKey Security allows you to re-key your lock yourself in seconds.

Available in SC1 Keyway

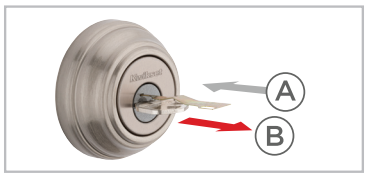

Reasons to Re-Key

- Loaned or unreturned keys
- Your child has lost their key, again
- Recently moved, tenant turnover
- You have a different key for each door

How SmartKey Security™ Works

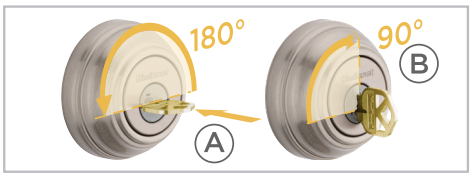

1 Insert **current key** & rotate 90° CW.

2 (A) Fully insert the **SmartKey tool.**

(B) ***Remove*** tool & current key.

3 (A) Fully insert **new key** & rotate 180°.

(B) Rotate back to the starting position, & remove key. Your lock is now re-keyed!

! Make sure you have your current key and SmartKey tool

KEY CONTROL™
DEADBOLT

THE SMART ALTERNATIVE TO MASTER KEYING IN A NEW CONTEMPORARY STYLE

Re-keying & managing a traditional master key system is labor intensive, time consuming & costly. With the first & only two cylinder Key Control Deadbolt, either cylinder can be re-keyed in seconds, without removing the lock from the door.

Key Control

- Two separate cylinders, Tenant & Property Manager, allows for more tenant key cuts than a traditional master key system
- New proprietary keyway adds security - the tenant key will never fit into the Property Manager Cylinder
- The Property Manager Cylinder is concealed when not in use to avoid tenant confusion

Increased Efficiency

- Re-key the lock without removing from the door
- Save time & money by re-keying yourself
- Maintain key control throughout tenant and employee turnover

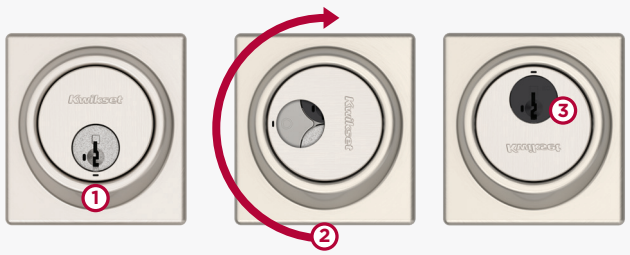

SMARTKEY SECURITY™

Perfect for multi-family dwellings, student housing, assisted living & rental properties.

*Cylinder cap removed to show both cylinders

Easily access the Property Manager Cylinder: **(1)** Insert the SmartKey Tool into the slot at bottom of cylinder cover **(2)** Rotate cover clockwise to expose the Property Manager Cylinder. **(3)** Now you have access to the Property Manager Cylinder. Use tool to rotate counter-clockwise back to user's keyway when appropriate.

SmartKey Tool

PROTECTION THAT LIVES ON
MICROBAN®
ANTIMICROBIAL TECHNOLOGY

Kwikset® and Microban®, the global leader in built-in antimicrobial protection, have teamed up to improve the standard for door hardware. Kwikset® will now offer antimicrobial protection on select products, inhibiting the growth of bacteria on frequently touched door hardware in your home.

99.9% Cleaner
Than Unprotected Surface

Unprotected Surface

Protected with Microban

Benefits of Kwikset® Door Hardware with Microban® Technology

Bacteria can double every 20 minutes on unprotected surfaces, but Kwikset Door Hardware with Microban protection works to continuously fight off microbes.

- Door hardware is 99.9% cleaner than knobs without Microban.
- The antimicrobial coating lasts for the lifetime of the hardware finish, so you can worry less and feel more secure in your home.
- 24/7 Antimicrobial product protection.
- Kwikset with Microban protection resists the growth of a broad spectrum of bacteria.
